PART I

Where, for any question, insufficient space has been provided, the answer should be continued on a separate sheet.

Section A. Owner's Details

Where the applicant is not the owner full details of the applicant on a separate sheet are to be submitted with the application form

Form with 12 numbered sections for owner details, including name, company registration, address, contact info, and shareholding details.

## Section B. Details of Proposed Construction(s) / Reconstruction

13. A sufficient description specifying the actual proposed location of the generating station and associated land use :

14. Desired date from which the authorisation is to take effect (dd/mm/yyyy):  /  /

15. Date when the proposed generating station is expected to be commissioned (dd/mm/yyyy):  /  /

16. Is the owner of the proposed plant the owner of the land?

Yes

No

If No, please provide full particulars of the owner(s) of the land and whether consent for authorization to construct generating station on the land has been obtained. Full details and copies / declarations of the consent given are to be attached.

17. No. of generating units:

18. Details of the capacity (MW), type, expected life and technical specifications of each generating unit:

19. A description of how the generating station will be fuelled or driven, including both primary and back-up fuel sources, storage and security fuel stocks held.

20. Details of the ancillary services that the generating station will be capable of providing:

20A. Reactive Power Capability: kVAr (lead):

kVAr (lag):

**20 B. Operating Reserve Capability** *(as applicable)* :

**20 C. Frequency Control Capability** *(as applicable)* :

**21. Black Start Capability** *(as applicable)* :

**22. A description of the measures to be taken by the applicant to ensure the safety and security of the electrical system, including details of who shall have responsibility for the engineering and Construction/ Reconstruction of the plant :**

**23. A description of the measures to be taken by the applicant to achieve effective and efficient use and production of energy which shall include energy efficient calculations. :**

**24. Details of any connection agreements made or being sought with Enemalta Corporation, including modifications to existing connection arrangements. :**

## Section C. Licensing History

25. Has the applicant or an affiliate been licensed by the Malta Resources Authority?

Yes

No

(If yes please provide full particulars)

## Section D. Regulatory Approvals

26. Details of all applicable statutory or other consents, permissions or licences held, applied for or being applied for by the applicant, or by affiliates of the applicant, necessary for the construction and operation of the proposed generating station including planning permission (or exemption from planning permission.)

27. Has the applicant been found guilty or convicted or been subject to any form of enforcement action by any regulatory authority or convicted of a criminal offence under any law in the past 5 years or are any charges now pending?

Yes

No

(If yes please provide full particulars)

28. Has the applicant ever had a licence or permit or other form of registration of any kind refused, suspended, revoked or cancelled by any regulatory authority?

Yes

No

(If yes please provide full particulars)

## PART II - A

### DOCUMENTS TO BE SUBMITTED TOGETHER WITH THE APPLICATION FOR AUTHORISATION TO CONSTRUCT/ RECONSTRUCT A GENERATING STATION

If the applicant is not the owner, please attach relevant documents for both the applicant and the owner. Applicants are required to submit two (2) signed copies of each document with their application.

Refer also to Notes (i), (ii) and (iii) on Page 6 of this application form.

	<b>Checklist</b> <small>(Tick as applicable)</small>
<b>1. Financial information</b>	
<b>(i) Financial history</b>	
(a) Statements of the accounts for the last two years kept by the applicant in respect of relevant undertakings carried on by him, showing the financial state of affairs of that undertaking and its profit or loss, together with copies of the latest audited accounts.	<input type="checkbox"/>
(b) If more than three months have elapsed since the end of the accounting year covered by the accounts submitted, a certificate from the applicant stating that no material adverse change has occurred.	<input type="checkbox"/>
Where the applicant is a special purpose vehicle, a statement of the relevant parent company accounts and guarantees.	<input type="checkbox"/>
<b>(ii) Project planning and feasibility</b>	
An outline statement of the proposals for the business of the applicant to which the application relates, for the next five years, including:	
(a) Annual forecasts of costs, sales and revenues and project financing, stating the assumptions underlying the figures provided.	<input type="checkbox"/>
(b) Details of any expected subsequent substantial capital outflows, including major decommissioning costs.	<input type="checkbox"/>
(c) Estimates of net annual cash flows for subsequent periods sufficient to demonstrate the financial security and feasibility of the project(s) to which the application relates.	<input type="checkbox"/>
Information on the intended source of finance and (where relevant) confirmation from the relevant lender(s).	
<b>(iii) Exemptions</b>	
Applicants for generating stations less than 5MW may be exempt, on application in writing to the Authority, from the requirement to submit financial information.	
<b>3. Construction and commissioning programme.</b> (Identifying the major milestones in the project development, from authorisation to completion).	<input type="checkbox"/>
<b>4. Maps(s) or marine charts sufficient to identify the location of the generating station to which the application relates.</b>	<input type="checkbox"/>
<b>5. System stability study showing that the generation plant will not affect the security and stability of the system or a statement to the same effect by Enemalta Corporation.</b>	<input type="checkbox"/>
<b>6. Connection Offer from Enemalta Corporation or confirmation that modification of an existing connection agreement is being sought.</b>	<input type="checkbox"/>
<b>7. Power Purchase Agreement if applicable.</b>	<input type="checkbox"/>

## PART II - B

	<b>Checklist</b> <small>(Tick as applicable)</small>
<b>OTHER DOCUMENTATION NECESSARY TO BE SUBMITTED TO THE AUTHORITY FOR AUTHORISATION</b>	
<b>8. (i) Planning permission [including an approved Environmental Impact Assessment (where applicable)] issued by the Malta Environment and Planning Authority or (ii) confirmation from the Malta Environment and Planning Authority that the proposal does not require planning permission.</b>	<input type="checkbox"/>
<b>9. (i) An IPPC licence issued by the Malta Environment and Planning Authority or (ii) confirmation from the Malta Environment and Planning Authority that the proposal does not require an IPPC licence.</b>	<input type="checkbox"/>
<b>10. (i) A water abstraction licence issued by the Malta Resources Authority and a water discharge permit issued by the Malta Resources Authority or the Malta Environment and Planning Authority or (ii) confirmation from the Malta Environment and Planning Authority and the Malta Resources Authority that the proposal does not require a water abstraction licence and a water discharge permit.</b>	<input type="checkbox"/>

## PART III

### Declaration by the Applicant(s):

On behalf of the applicant, I / we *(delete as applicable)* hereby declare that:

- (a) the applicant shall at all times comply in every respect with the conditions attached to any authorisation that may be awarded to the applicant;
- (b) the applicant shall at all times comply with the lawful directions of the Malta Resources Authority;
- (c) the information provided by me on behalf of the applicant is accurate and complete in all respects; and
- (d) I / We *(delete as applicable)* am / are authorised to make this declaration on behalf of the applicant.

### Notes:

- (i) The Authority may commence consideration of an application for authorisation even if the documentation listed in Part II B is not deposited with the Authority and may issue a refusal for such an application following due consideration of such an application. An authorisation will not however be issued until the documentation listed in Part II B of this application is submitted to the Authority.
- (ii) Commencement of consideration of this application does not in any way prejudice the Authority's role as a statutory consultee to any other regulatory authority on any application necessary for the construction and operation of the proposed generating station.
- (iii) The Authority reserves the right to request any additional information from the applicant, to be submitted within such time as it may determine.
